Promoting Resilience, Achieving Potential

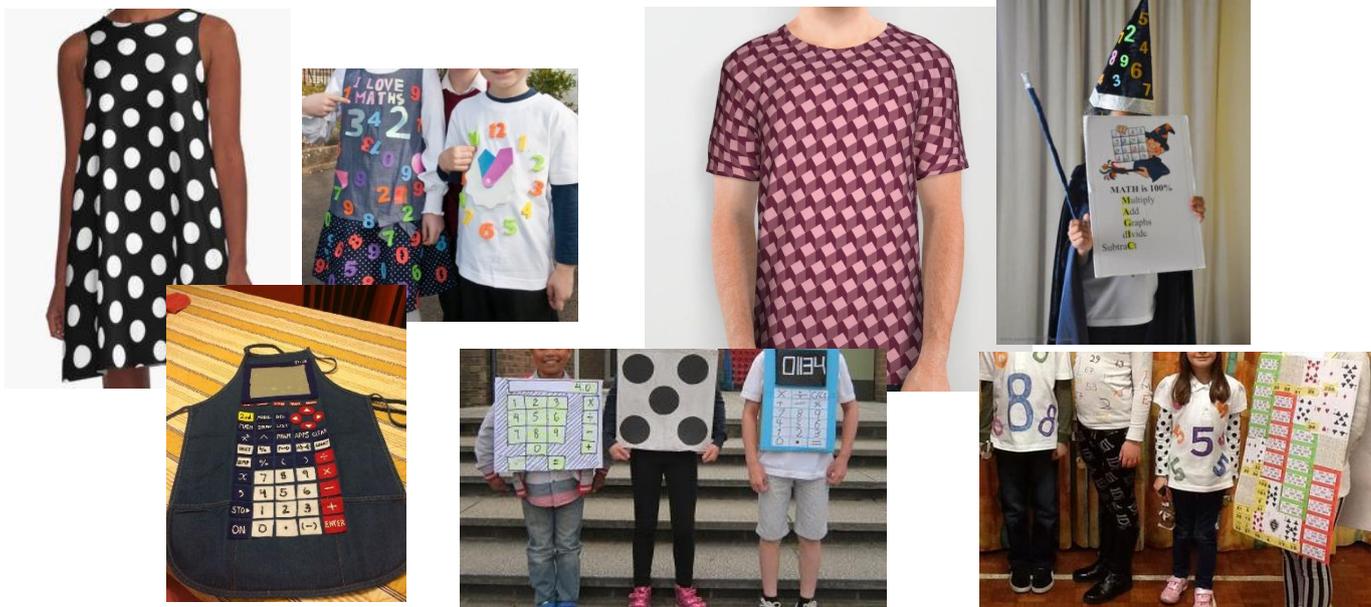

Cathy Cox – Head Teacher

Thursday 14th June 2018

Dear Parents and Carers,

Next Thursday, 21st June, is Maths Day at school. Throughout the day the children will be taking part in various maths based activities and investigations as well as looking at maths across the curriculum. As a starting point to their learning, every class will be using a book called 'If the World were a Village...' by David J. Smith and Shelagh Armstrong.

As part of the day, we are inviting the children to dress up in a maths based outfit. This can be as simple as a patterned top or dress, a home decorated t-shirt or hat, or a fully homemade costume. It can be linked to any area of maths, e.g. number, time, shape, patterns, fractions, etc... Below are some ideas...

Please do not send children in football shirts, and do make sure that they will be comfortable and able to access their exciting maths learning on the day.

As part of the day, there will also be a times table rock star battle. Each class from Year 2 upwards will have heats during the morning, and then the champions will face off in an assembly at the end of the day. Please encourage your children to continue to practise in the days leading up to it so they are ready!

Remember to keep an eye of the school twitter account to see updates throughout the day about what the children are getting up to.

Kind regards,

Mr Marshall, Miss Allen and Miss Nleya
