

Highwood Primary School—Year 1—Autumn 1—Senses

The Five Senses

I use my ears to hear...
 Singing, animals, the sea, tv, music, other people talking.
 What else can you hear in your environment?

I use my eyes to see...
 My friends, my family, my pets, flowers, colours.
 What else can you see in your environment?

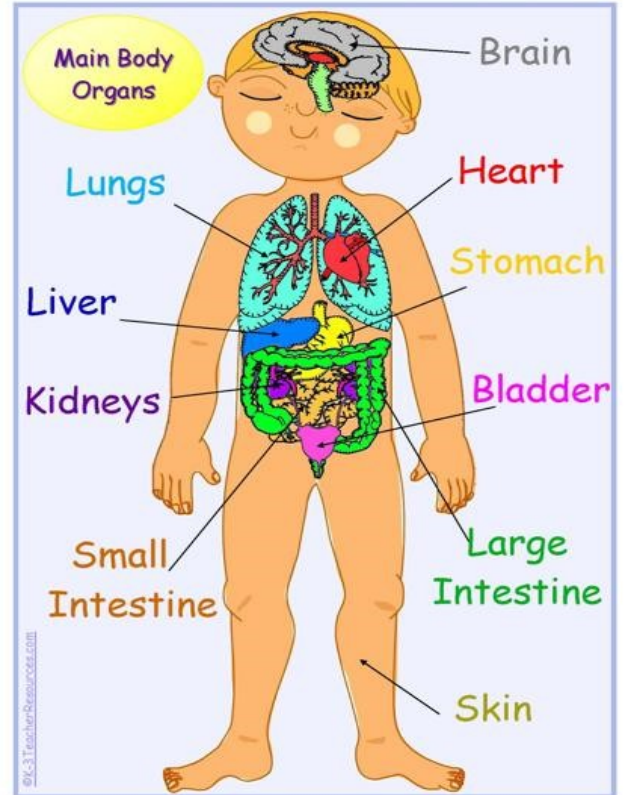

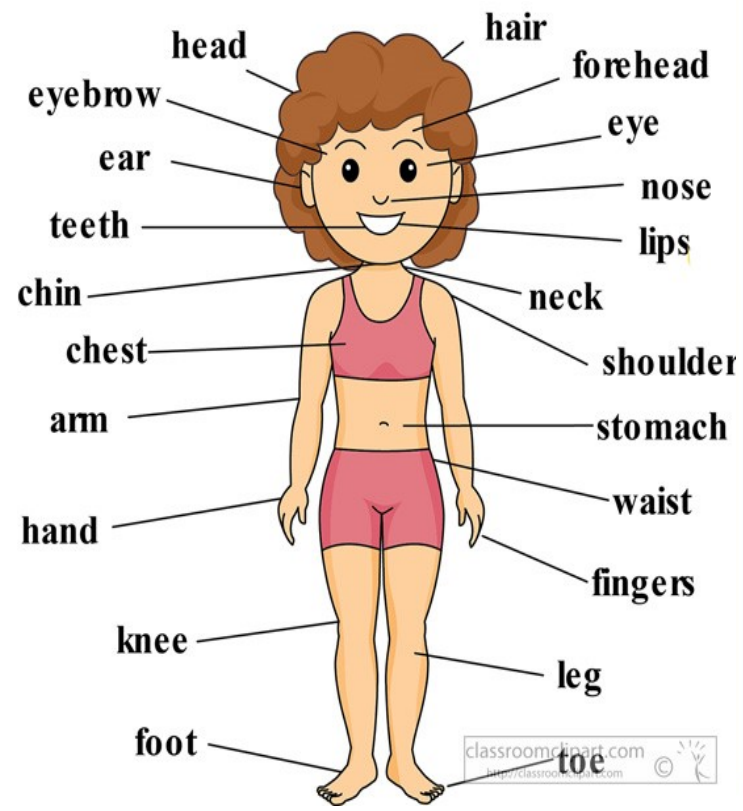

I use my nose to smell...
 Food, perfume, places around me, flowers.
 What else can you smell in your environment?

I use my tongue to taste...
 Food!
 What are your favourite foods?

I use my hands to touch...
 Toys, pens, people, park equipment, food.
 What else can you touch in your environment?

A Doctor looks after our bodies when we are unwell.

A Dentist looks after our teeth and gums.

An Optician looks after our eyes.
