	Flickr 13+		Spotify 18+ for own account (13+ with parent permission)

Children are finding new apps and software to download and try all the time.

If you are unsure of the suitability of any new app then all you need to do is type into a Google search the name of the app followed by age limits and the first thing displayed should be the age requirements.

A good website to check with is <https://www.net-aware.org.uk/>
